Generate Report					

Using Interlab QC: Chromogenic Factor VIII

- 1. Click Enter Chromogenic Factor VIII Data, Edit Data, or Generate Reports as appropriate.
 - Enter Data: allows you to choose the month for which you are entering information along with your instrument(s), product information and lot numbers, and then enter your raw data. *Ensure to choose the correct unit for your data (% or IU/mL).*
 - Edit Data: allows you to adjust any entries you have made.
 - **Generate Reports:** allows you to see the consolidated information for the month chosen based on the raw data that has been entered. **Note:** If you see any discrepancies, try editing the data and regenerating the report. If this does not resolve the issue, please contact us and we will be happy to help.
- 2. Complete the fields by following the onscreen instructions. *Note: If you are entering or editing data, be sure to click Save.*
