

Precision BioLogic is proud to support
World Hemophilia Day, April 17
and the World Federation of Hemophilia.

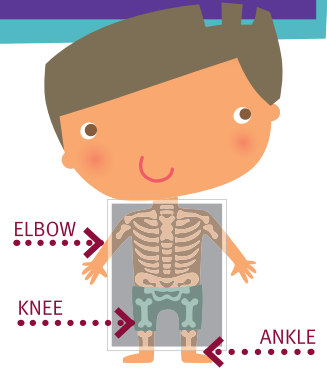

I have Hemophilia and **I'M OKAY!**

I've had hemophilia since I was **BORN** but with proper treatment, **I CAN** do just about anything.

And you can't catch it.
SO WE CAN BE FRIENDS!

Hemophilia means I can **BLEED & BRUISE** easily.

BLEEDING may happen **IN JOINTS LIKE MY ANKLES, KNEES, ELBOWS.** Even in my **MUSCLES.**

MUSCLE

Playing builds **MUSCLES** and helps my **JOINTS**

IF I BLEED OR BRUISE, I REST, put **ICE** on it, see the **DOCTOR** or go to a special **CLINIC.**

Nothing too rough....
SWIMMING IS PERFECT!

And the **BRACELET** I wear lets people know I have **HEMOPHILIA** so they'll know **HOW TO HELP** if I get hurt. **(It's a MEDICAL ALERT bracelet.)**
